LATE WAIVER REQUEST

Employee Step-by-Step Guide

369ai.Biz Employee Attendance App

The screenshot displays the 'Late Waiver Request' interface within the 369ai.Biz app. At the top, there's a header with a back arrow, the title 'Late Waiver Request', and the 369ai.Biz logo. Below this, a date and time section shows 'Today Wednesday, June 17, 2026' and a large digital clock displaying '2:50:42 PM' with 'LIVE TIME' underneath. A navigation bar features two tabs: 'New Request' (active) and 'My Requests'. The main content area is titled 'Select Late Attendance *' with a subtitle 'Last 30 days only un-waived records'. It lists a single entry: '2026-06-17 - 2:48 PM' with a radio button, 'Late 6h 48m - Deduction: 50', and a note '*Traffic!'. Below this is a text field for 'Reason for Waiver *' containing the placeholder 'e.g., office errand, client visit, traffic incident...'. A large grey button labeled 'Submit Waiver Request' is positioned below the text field. At the bottom, a dark grey pill-shaped button says 'Welcome, Sri!'.

A simple guide to requesting a waiver for a late-arrival deduction, submitting it for manager approval, and tracking the result.

About Late Waiver Request

When you check in late, the app records the late time and applies a **salary deduction**. If you had a genuine reason for being late, you can use **Late Waiver Request** to ask your manager to **waive (cancel) that deduction**. You pick the late record, give a reason, and submit it for **approval**. You can track the result under **My Requests**.

This is the formal follow-up to the “You’re Late” screen in Office Attendance. The reason you typed at check-in explains why you were late; a waiver request asks for the deduction itself to be cancelled.

This guide walks you through everything you do, in the order you will do it.

How a Waiver Works

- Open the app and go to **User Attendance**
- Choose **Late Waiver Request** and verify your identity
- Select the **late attendance** you want waived
- Enter a **reason for the waiver**
- Review and **Submit** for your manager's approval
- Track the result under **My Requests** — Pending, Approved or Rejected

PART 1 Opening Late Waiver Request

Step 1 Open the App and go to User Attendance

On your phone, open the Employee Attendance app. From the 369ai.Biz home screen, open **All Options**, scroll down to the **HR & Tracking** section, and tap **User Attendance**.

Step 2 Choose Late Waiver Request

On the **Select Attendance Type** screen, tap **Late Waiver Request** (“Request waiver for a late arrival deduction”).

Step 3 Verify Your Identity

Confirm it is really you. Either tap **Scan Fingerprint** and use your enrolled finger, or type your 4-digit PIN under **Enter PIN** and tap **Verify PIN**.

The screenshot displays the 'Late Waiver Request' app interface. At the top, there is a back arrow, the title 'Late Waiver Request', and the '369ai.Biz' logo. Below this, a date section shows 'Today' with a calendar icon and 'Wednesday, June 17, 2026'. A clock section displays '2:50:39 PM' with a clock icon and 'LIVE TIME' underneath. The main verification area features a 'Scan Fingerprint' option with a fingerprint icon and the instruction 'Tap to verify your identity'. Below this is an 'OR' separator. The 'Enter PIN' option is shown with a keypad icon and the text 'Enter your PIN' in a light gray box. A dark blue button with a checkmark and the text 'Verify PIN' is positioned below the PIN entry field. At the bottom, a 'Device ID' field displays the value 'bb29f3bcb82ee3f3'.

PART 2 Raising a Waiver

Step 4 Select the Late Attendance

You will land on the **New Request** tab. Under **Select Late Attendance**, the app lists your late check-ins — **only un-waived records from the last 30 days**. Each card shows the date and time, how late you were, the deduction amount, and the reason you gave at check-in. Tap the card to select it; the selected card is highlighted.

If you don't see a late record here, it means you have no un-waived late check-ins in the last 30 days — there is nothing to waive.

+ New Request My Requests

Select Late Attendance *

Last 30 days - only un-waived records

2026-06-17 : 2:48 PM
Late 6h 48m - Deduction: 50
"Traffic"

Reason for Waiver *

e.g., office errand, client visit, traffic incident...

Welcome, Sri!

Step 5 Enter a Reason for Waiver

In the **Reason for Waiver** box, explain why the deduction should be cancelled (for example, “There was heavy traffic returning from hometown”). A reason is required before you can submit.

The screenshot displays the 'Late Waiver Request' app interface. At the top, the title 'Late Waiver Request' and the logo '369ai.Biz' are visible. Below the title, a date selector shows 'Today Wednesday, June 17, 2026'. A large clock displays '2:50:46 PM' with 'LIVE TIME' underneath. There are two buttons: '+ New Request' (highlighted in purple) and 'My Requests'. Below these, a section titled 'Select Late Attendance *' shows 'Last 30 days · only un-waived records'. A list item is selected, showing '2026-06-17 · 2:48 PM', 'Late 6h 48m · Deduction: 50', and the reason 'Traffic'. Below this is a text input field labeled 'Reason for Waiver *' with the text 'Th' entered. A keyboard is visible at the bottom, showing the 'e' key highlighted. The keyboard also shows suggestions for 'Thank' and 'Terribly'.

Step 6 Review and Submit

Once a late record is selected and a reason is filled in, the **Submit Waiver Request** button becomes active. Tap it. A confirmation dialog shows a summary — **Date, Late time, Deduction, and Reason**. Check the details and tap **SUBMIT** to send it to your manager, or **CANCEL** to go back and edit.

PART 3 Tracking Your Waiver

Step 7 My Requests

After you submit, a message confirms “Waiver request submitted for approval”. Tap the **My Requests** tab to see all the waivers you have raised. Each card shows the late date, the late time and deduction, your reason, and a **status badge** — **Pending** (awaiting your manager), **Approved**, or **Rejected**. When a waiver is **Approved**, the deduction is removed.

What the Late Record Shows

Each card under Select Late Attendance summarises one late check-in:

Detail	What it means
Date & time	The day and the time you checked in late.
Late duration	How long after your expected start time you checked in (e.g. Late 6h 48m).
Deduction	The salary amount currently deducted for that late arrival (e.g. 50).
Reason	The short reason you typed on the “You're Late” screen at check-in.

What Happens After You Submit

Status	What it means
Pending	Submitted and waiting for your manager to approve or reject. The deduction still stands for now.
Approved	Your manager agreed — the deduction is waived and removed from your pay.
Rejected	Your manager did not agree — the deduction stays as it was.
